An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lee Cheng on 11/9/06.

In claim 8 line 6 after "relationship" delete "and" and insert --- , ---.

At the end of claim 8 before the period insert --- , and wherein the main part and the curing component are separated from each other ---.

In claim 9 line 6 after "relationship" delete "and" and insert --- , ---.

At the end of claim 9 before the period insert --- , and wherein the main part and the curing component are separated from each other ---.

The following is an examiner's statement of reasons for allowance: McFadden '819 packages the epoxy and the ketone together (col 5 line 17-25) rather than separately as in applicant's claims. Okuhira '333 Carves '497 and Brindell '950 all utilize ketimines to cure epoxies, but the ketimine apparently does not contain water or the ketone or amine. Note that Brindell '950 supplies water in the epoxy package – not the ketimine package.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
